

Plots for frequentist lfdr paper

Figure 1: Strimmer's lfdr estimate on microbiome data

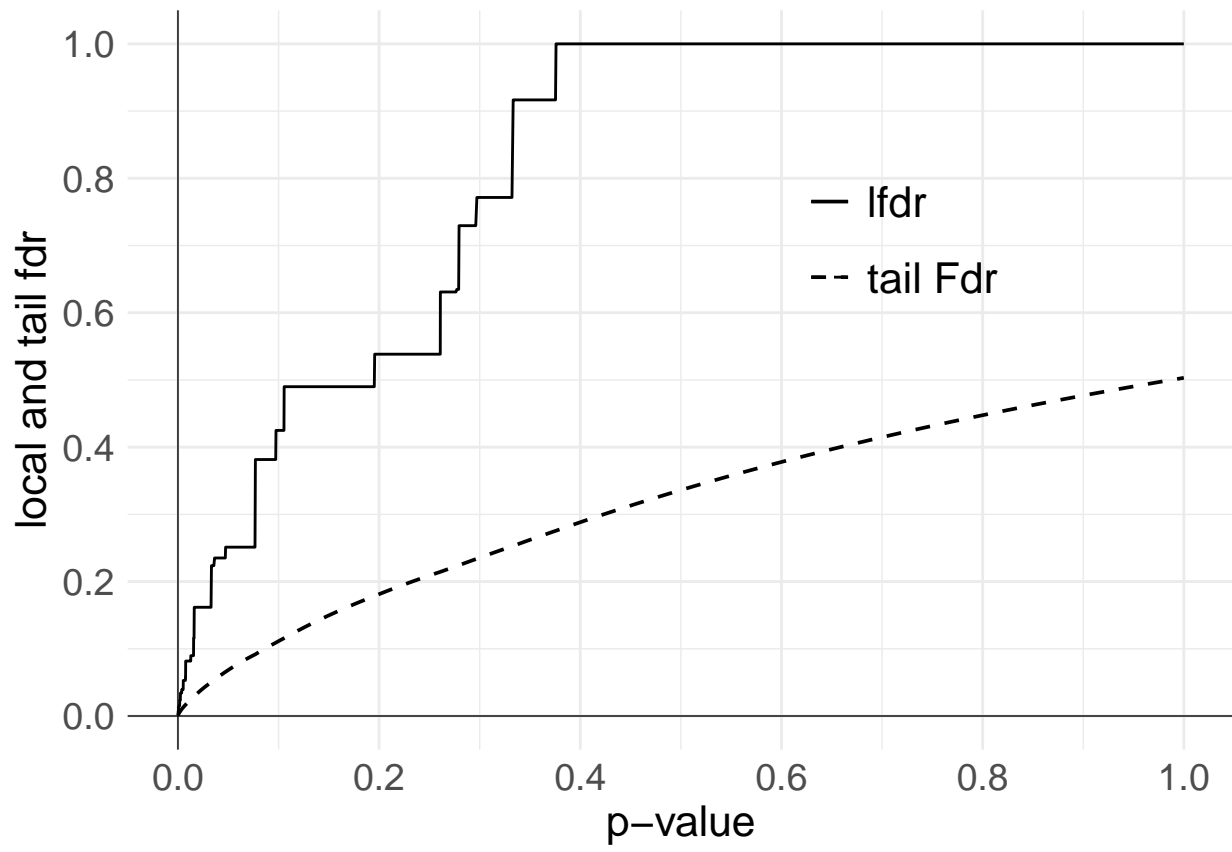

Figure 2: GGM example: histogram plot

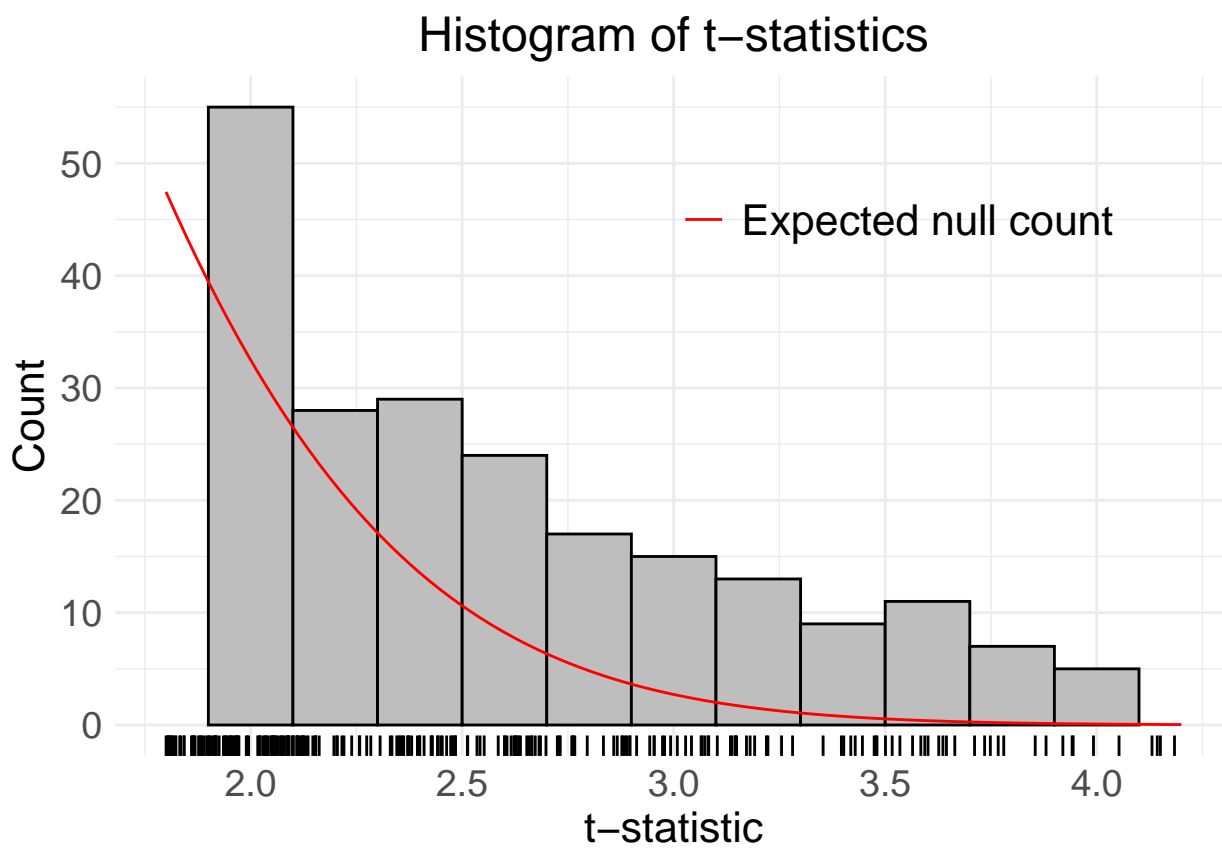

Figure 3: GGM example, calibration plot

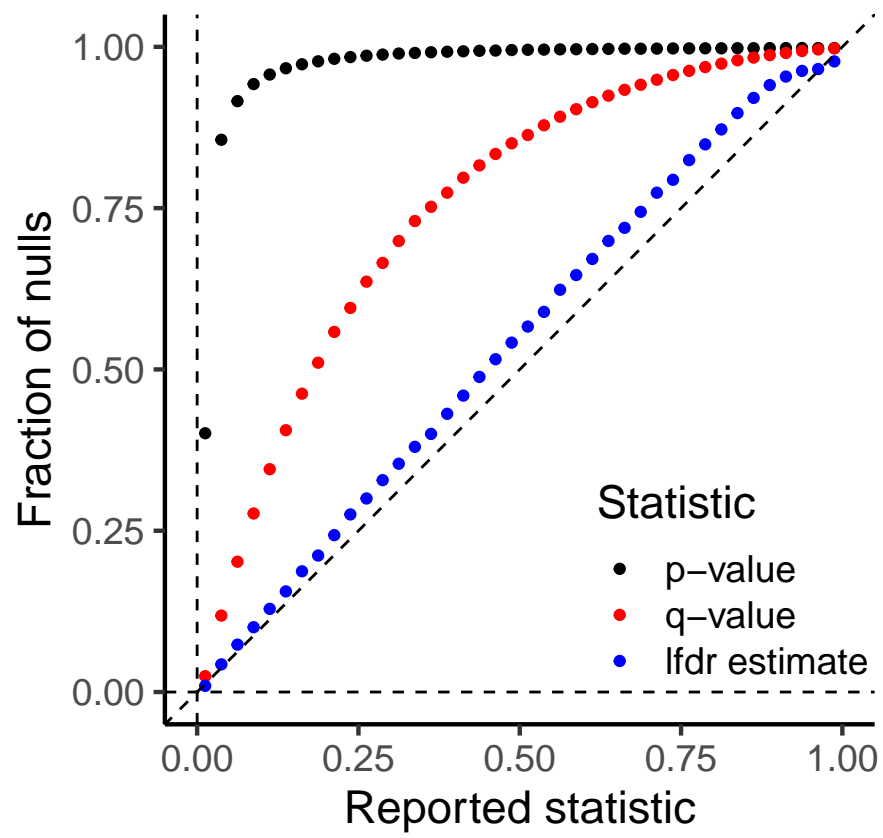

Figure 4: P-value histogram with bFDR estimate

[1] 202

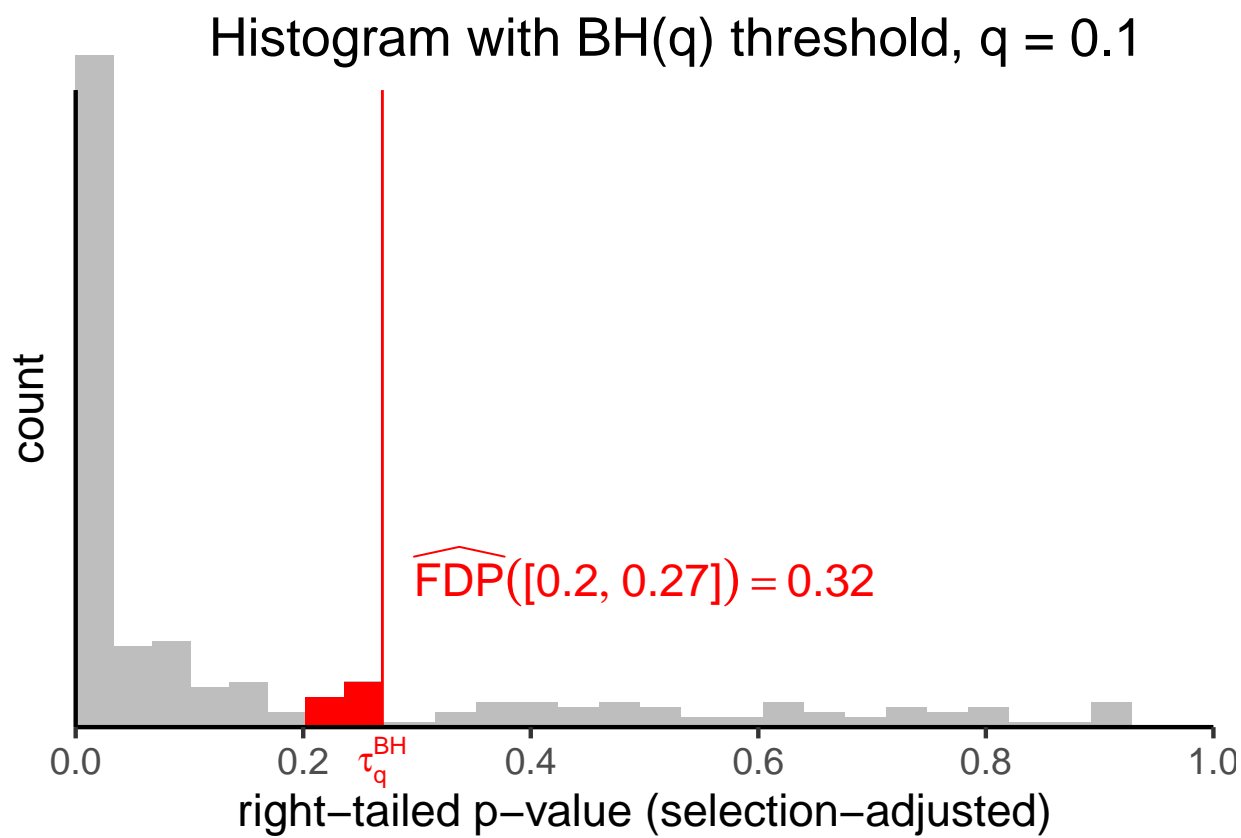

Figure 5: Broken line plot

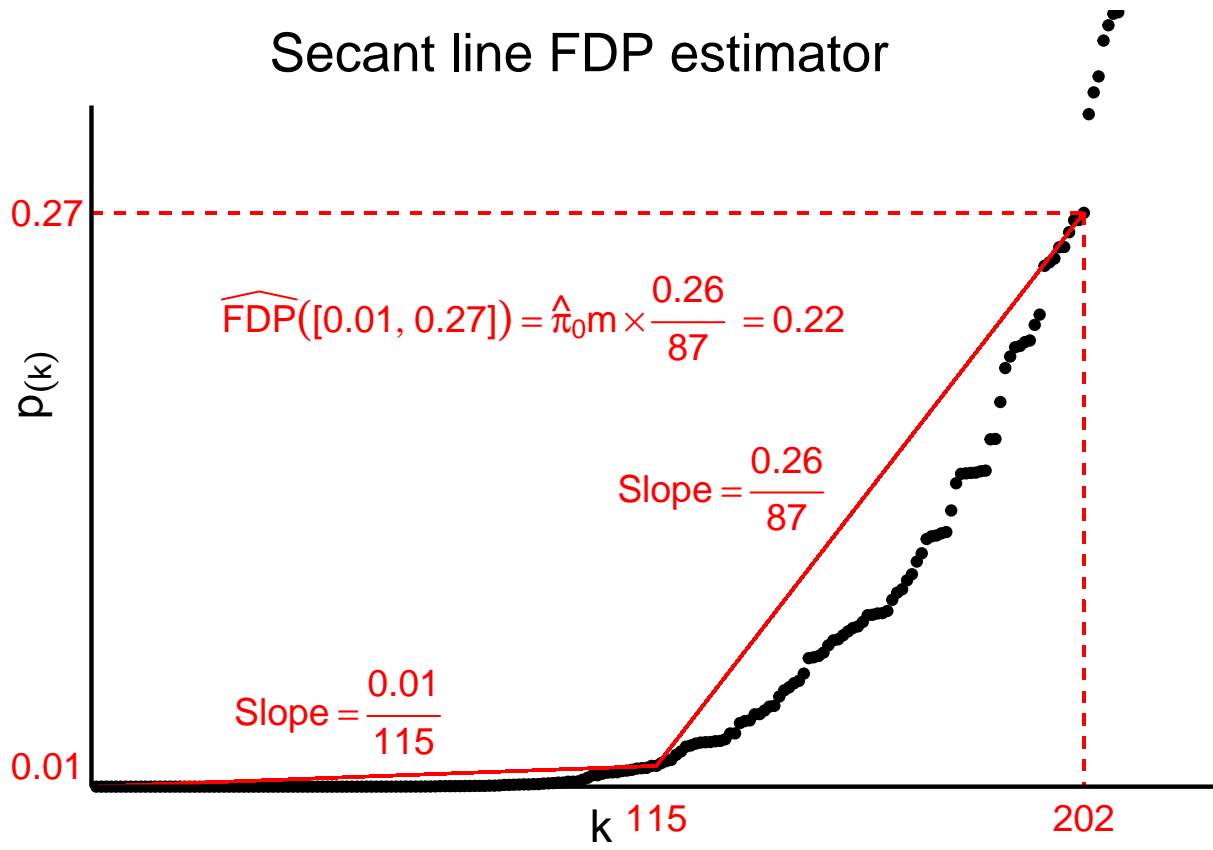

Figure 6: Scatterplot of clfdr versus mlfdr with $m=1000$ tests

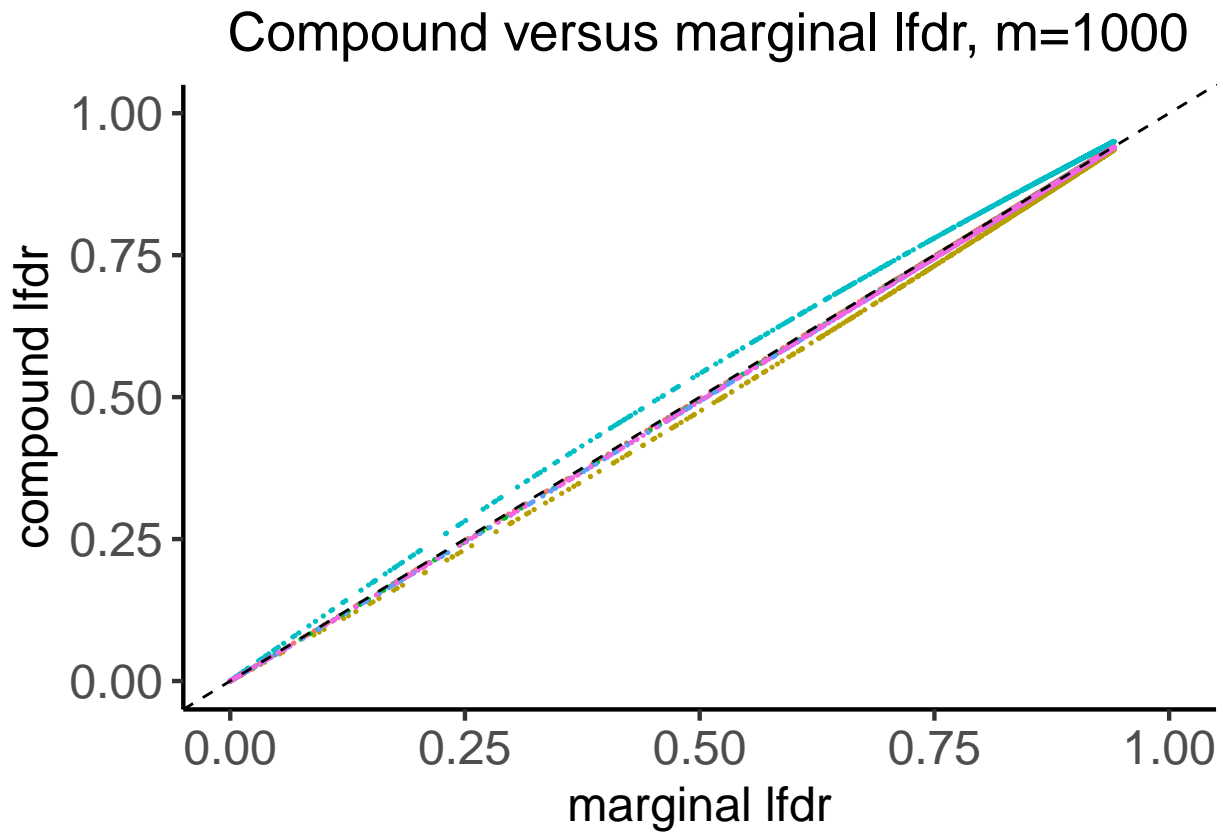

Figure 6: Hockey stick plot

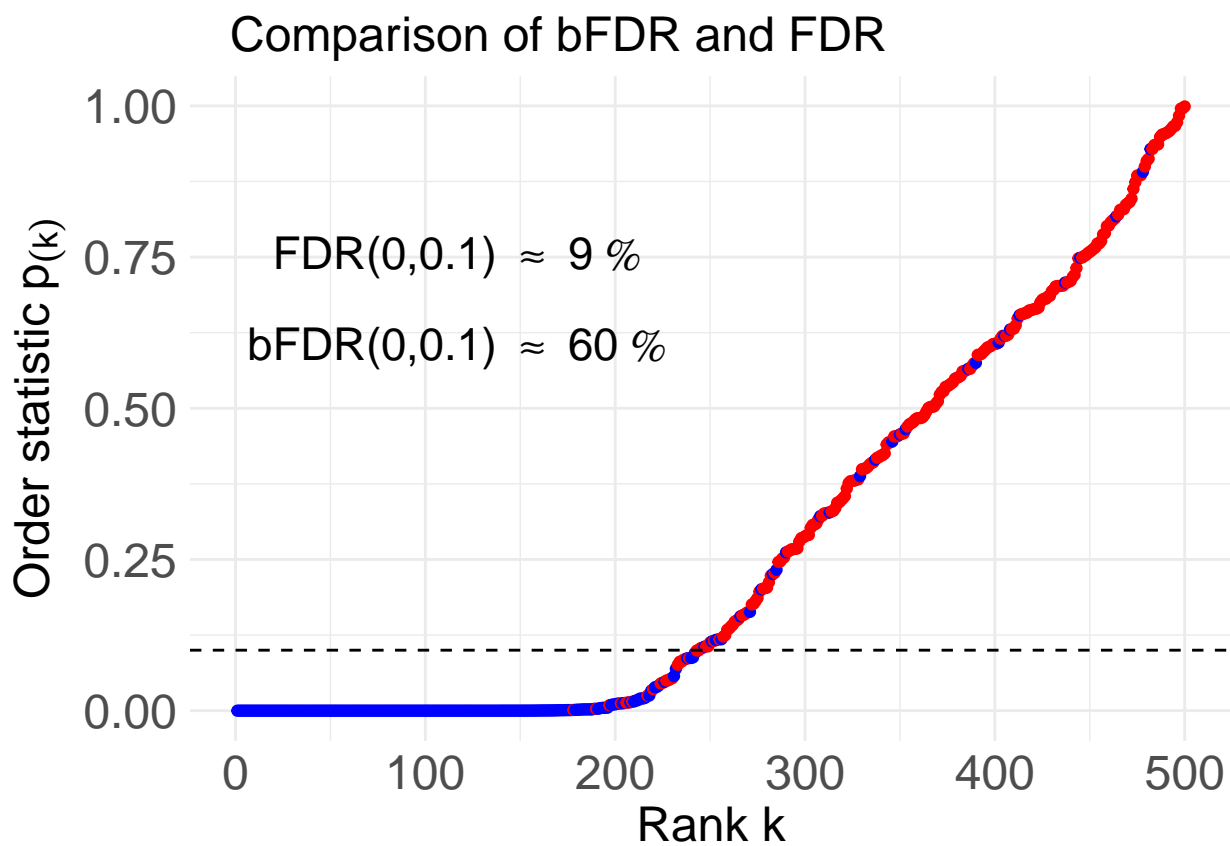

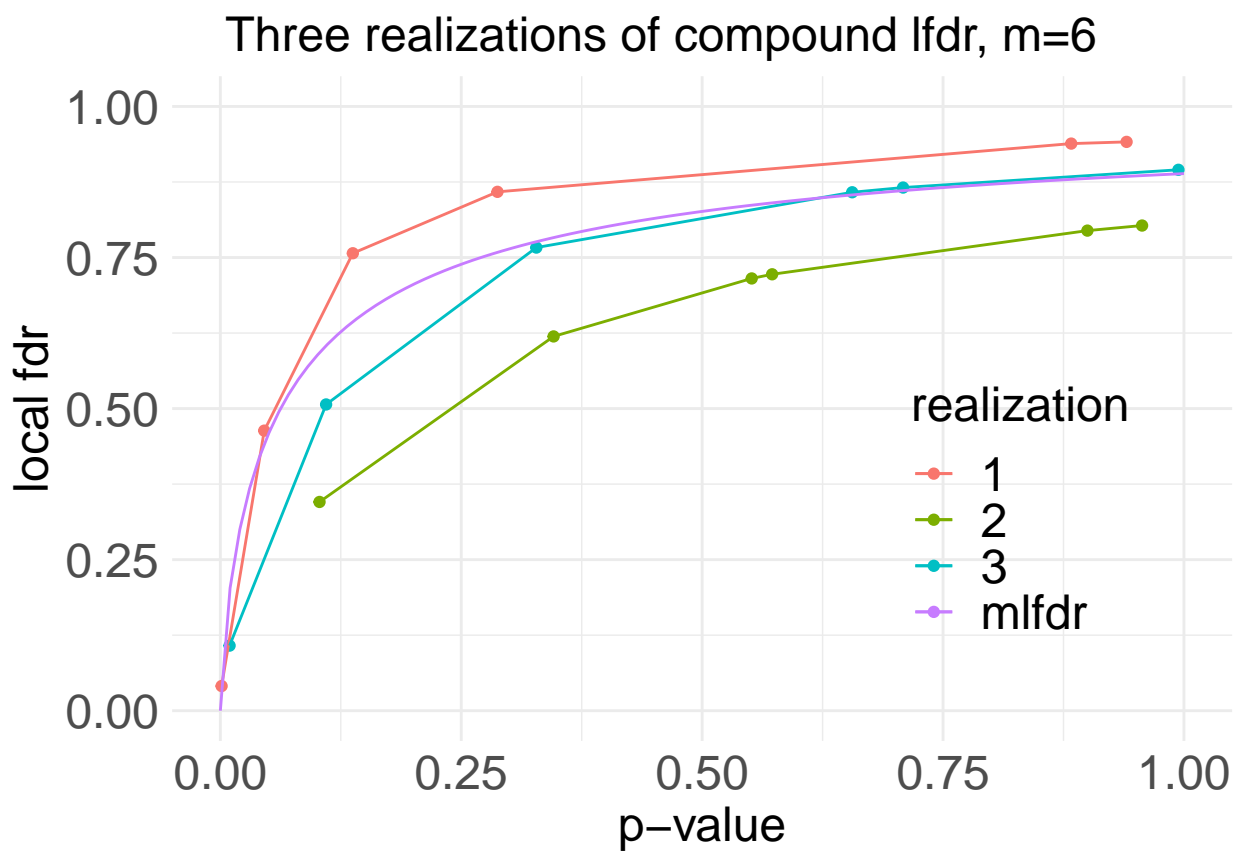

Figure 7: Small experiment to illustrate clfdr with $m=6$ tests

Larger experiment to show clfdr and mlfdr are close to the local FDP (Old manuscript)

Comparison of clfdr, mlfdr, and local FDP
